

Vu-Flow Spin-Down Filters

- 150 PSI working pressure at 73°F.
- ½” drain cleanout for quick one step purge cleaning – Valve included.
- Inlet & outlet slip can be bushed to fit required pipe size.
- Molded heavy-duty PVC filter and clear polycarbonate housing to permit instant visual inspection.
- Polyester screens are easily cleaned and reused eliminating expensive replacement.

- **Irrigation Systems:** Sprinkler gear drives, spray nozzles, drip emitters, and solenoid valves.
- **Domestic or Commercial Well Water:** faucet aerators, toilet valves, dish/clothes washers, water softeners, ice makers, and HVAC pumps.
- **Industrial:** Machinery cooling systems, process water prefiltration, distribution solenoid valves, and cooling towers.
- **Poultry and Livestock:** Cooling system fogger nozzles, drinking nipples, wash-down water valves, and medication distribution systems.
