

Grundfos MQ Series Booster Pumps

The Grundfos MQ is a compact all-in-one pressure boosting unit, designed for domestic water supply. The MQ is a self-priming multistage centrifugal pump with a small built-in pressure tank and check valve to ensure that water is readily available from the tap. When water is required, the pump automatically starts and stops. The MQ comes with dry-run protection and a user-friendly control panel.

Grundfos MQ Pumps				
Product Number	Grundfos Number	HP	Voltage	Approx. Wt. (lbs)
MQ3351	96515512	3/4	115	29
MQ3352	96515514	3/4	230	29
MQ3451	96515513	1	115	29
MQ3452	96515515	1	230	29

Voltage: 115 or 230
 Max. Fluid Temperature 95°F
 Max Inlet Pressure 45 PSI
 Max Suction Lift:..... 25 ft
 Suction Size: 1" MNPT
 Discharge Size: 1" MNPT
