

Electrode Holders

Type E
Pressure Tight

PVC Conduit Type

Cord Grip Type

Electrode Holders				
Product Number	Number of Electrodes	Holder Description	Mounting Size	Approx. Wt. (lbs)
6012E1BREP3	1	Brass, Pressure Tight	1" NPT	2
6012E2BREP3	2	Brass, Pressure Tight	2" NPT	3
6012E3BREP3	3	Brass, Pressure Tight	2" NPT	3
6012E4BREP3	4	Brass, Pressure Tight	3" NPT	5
6012C4P	4	Conduit Type, PVC	1/2" SLIP PVC	.5
6012CG1	1	Cord Grip Type	1/2" NPT	.5
6012CG2	2	Cord Grip Type	1/2" NPT	.5

Electrodes

These electrodes can be suspended by wire and may be used for long lengths and where space prevents use of rod electrodes.

Electrodes			
Product Number	Size	Material	Approx. Wt. (lbs)
6013W1	Large	Brass	.5
6013W2	Large	Stainless	.5
6013W5	Small	Brass	.25
6013W6	Small	Stainless	.25

Wire Connectors Kit

This adapter is required to attach the Type SW suspension wire to the 1/4-20 female electrode holder connections in the Type E holder. One is required per electrode.

Rod Electrodes

1/4" Brass electrode rod in cut to order lengths. Includes one end threaded to 1/4"-20 threads for direct connection to Type E electrode holders.

Electrode Suspension Wire

Size 18 AWG copper wire with PVC insulation. Used to suspend electrodes from electrode holders. Standard roll length is 500'.

Electrode Plugs

Electrode plugs are included in the Type E electrode holders. They can also be used for individual mounting of electrodes in special situations.

Accessories		
Product Number	Item Description	Approx. Wt. (lbs)
6013SW	Electrode Suspension Wire (Single Conductor)	.25
14BR	Brass Electrode Rod	.5
6012EP3	Electrode Replacement Plugs	.2
6013CBR	Wire Connectors for Caps	.1
